Project Idea / Идея проекта

Amber Coast Logistics is a collaborative logistics project that supports the coordinated development of multimodal Logistics Centres and thus fosters the connection of remote areas in the southern and eastern Baltic Sea Region.

«Amber Coast Logistics» - это проект сотрудничества по поддержке координированного развития мультимодальных логистических центров с целью содействия транспортному сообщению между удаленными районами юга и востока региона Балтийского моря.
The Main Objectives

• to improve cargo flows and accessibility both on sea and landside and strengthen economic ties between emerging eastern European countries like Belarus, Russian Federation and Ukraine and EU member states within the BSR,

• to facilitate sustainable mutual development,

• to offer transparent services to the market which are neutral in terms of effects on competition.
Geographical Scope
